HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling invented by H. R. Hoagland, we feel pleasure in recommending the public that in our opinion it is the safest and best method of connecting shafts or tongues to vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, quickly and speedily separated. It rests on Gutta Percha, and is to be entirely free from the rattling sound which often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and as conveniently, safe and secure.
It is easy to change to this style of coupling on Buggies or other vehicle now in use, and with any expense. We have come to the conclusion to use this attachment ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, before considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO AUGUST 4.

Washington News.

WASHINGTON, Aug. 2.—Superintendent Clapp, of the Government printing office has appointed eight apprentices, two of whom are colored.

The warrants drawn by the Treasury, during July, amounts to $16,538,353.

In consequence of the issue of spurious $10 greenbacks, Secretary Boutwell has concluded to have a new issue of all denominations, from one to one thousand dollar notes. The plates are now being engraved at the bureau. The engraving, printing and designs are entirely new. No likeness of any living person will be placed on any notes. The face of the notes will be printed at the bureau and the backs in New York. Every possible care will be taken to prevent frauds.

WASHINGTON, Aug. 4.—The Internal Revenue Department to day issued additional regulations relating to claims for refunding taxes. No claims or applications hereafter made, forfeiting taxes, shall be entitled to consideration by the Commissioner of Internal Revenue, unless the same be filed with the Commissioner within two years from the date of the payment of tax, or in case the claims have already accrued within two years from this date.

It is understood that no regular Cabinet meeting will be held until Sept. 1st.

Secretaries Rawlins and Cox are the only members of the Cabinet now in the city.

Postmaster-General Creswell expects to return here next Monday. He is recovering from his recent injuries.

The Indian Bureau has information that the Kiowas, Camanches and Arapahoes in the South are doing well on the reservation, with the prospect of improving.

New York News.

NEW YORK, Aug. 3.—New York specials say there is some anxiety about the yacht *Dauntless*, which left Queenstown for Havre two weeks ago, and has not been heard from. Bennett left her at Queenstown.

A lively competition has begun between the New York Central railroad and the new line between Newark and New York. The fares are reduced greatly.

European papers give accounts of a new conspiracy in Poland with the view of another revolution.

Tammany Demagoguery.

Resolutions were passed at the Tammany meeting last night, to hold the question of British rejection of the claims of Irish American citizens as a present international question between this country and Great Britain superior to those arising out of the conflict between the two countries on belligerent rights of the North and South; that the sympathy of the Democratic party are with the Cubans, that so far as we can, without rendering ourselves amenable to the neutrality laws, we will endeavor to succor and comfort the struggling people of Cuba; that if the administration on subjects involving the sovereignty of American citizenship would only exercise the alacrity which it has observed toward hunting Cuban refugees and detaining them at Fort Lafayette until they took the oath, our national honor would be better vindicated and a just demand for sympathy be widely gratified; that the recent outrages by the Spanish Government in Cuba, in the execution of American citizens without form of trial, should have received the most instant attention at the hands of Grant's administration, such as would have been given in behalf of outraged American people had the Democrats been at the head of the Government; that it is in vain for the Administration and against the wishes of the Cubans to attempt to acquire their island by purchase and so make them citizens of the United States; that it is duty of every patriot to demand that the Government awake from its reticent imbecility, and endeavor at once to right the American nation upon these questions of outrage by British and Spanish officials on the sovereignty of American citizenship. Governor Hoffman sent a letter saying that our Government has been disgraced by its failure to protect American citizens from injustice, cruelty and oppression, whether in Great Britain or Cuba, and it is the mission of the Democratic party to wipe out that disgrace, and they will do it at the next Administration. Let us not have peace when the rights of American citizens are trampled upon.

A party of white rowdies assaulted some negroes at a picnic near Newark, yesterday. A desperate fight ensued. Two were fatally stabbed and others wounded. Several arrests were made.

The Raritan & Delaware Bay Railroad will be sold on the 4th of September under a writ of *facias facias*, issued by the Court of Chancery at the suit of Chas. J. Hendrickson and Stewart Brown, complainants, who are holders of a mortgage on the road.

The anniversary of emancipation in the West India Islands was celebrated on Sunday, in the African Church, Tenth street.

LONG BRANCH, Aug. 2.—President Grant visited Bricksburg, N. J., to-day, as the guest of Robert Campbell, President of the Bricksburg Land Improvement Co. He was received with warm welcome from citizens and afterwards presented with fifty acres of land. The President will visit Secretary Fish at his home on the Hudson, in a few days, proceeding thence to White House and Saratoga.

Demit, candidate for State Treasurer, has a majority in the city of 5,000. His majority in the State will reach $45,000.

The returns from various sections indicate the election of all the Democratic candidates for the Legislature, except probably fifteen or twenty.

Mississippi Politics—Southern Railroads.

CHICAGO, Aug. 3.—Washington specials say the last Attorney of Mississippi, who was removed on Saturday by order of the President, was a leading man in the Dent movement. It is rumored that other Federal officers who have neglected their business, and are remaining in Washington in Dent's interests, will also be removed.

Representatives of an English house interested in the Memphis and El Paso railroad, subscribed seven million dollars stock to the Norfolk and Great Western road, with a view of controlling the line between Norfolk and Bristol, and making the last link in the chain from Norfolk to San Diego.

Committee of Ways and Means at Omaha

OMAHA, Aug. 3.—The Committee of Ways and Means arrived at Omaha this morning at eight o'clock. They state that they have traveled over the Pacific railroad, and from Sacramento 2,500 miles with as much comfort, convenience and sense of safety as they ever traveled over any road in the Eastern States.

At a meeting of the Committee of Ways and Means, held on the Pacific railroad en route from San Francisco, it was agreed to meet at Boston, Wednesday, October 20th, and sub committees were appointed to consider and report at the meeting as follows: on the rates of tariff, as follows: on all textile fabrics and component materials thereof, Hooper, Allison and Maynard, on metals and manufactures thereof, Kelly, Blair and Marshal, drugs, chemicals, dye-stuffs, wines and distilled spirits, Brooks, McCarthy and Allison on bonded warehouse laws regulating the customs and transit of goods to the Pacific States and the British possessions in North America, Schenck, Brooks and Hooper.

Chicago Dispatch.

CHICAGO, Aug. 3.—The Commercial says reached Omaha yesterday and had an interview with Col. Hammond, Superintendent of the Union Pacific railroad, who again assured them that every endeavor would be made to consult the best interests and convenience of the public.

Johnnie Leonard committed suicide yesterday on West Van Buren street. Cause—the old story—love, betrayal and desertion. Both parties to this sad affair belong to highly respected families.

Pittsburg Dispatch.

PITTSBURG, Aug. 3.—A few days ago a meeting of parties interested in the purchase of real estate from the Visacator Land Co., near San Francisco, was held in this city. They form a stock company with a capital of two millions, for the purchase of 3,775 acres just south of San Francisco. A committee was appointed to visit San Francisco to examine and report on the land proposed to be purchased, which committee left to-day. The present owner of the tract is Philip Falkiong, a resident of Chicago, who went to San Francisco last fall dead broke and by good luck became the virtual owner. The company propose to improve the land in the best possible manner.

Oscar Haldbron was accidentally and probably fatally burned yesterday by the explosion of a can of kerosene.

A boy fell through a sky-light at the Sherman House, sixty feet, and was killed.

Several other accidents have occurred.

A Political Hoax.

LOUISVILLE, Aug. 4.—The *Journal* has advices from Nashville, which purport to be from a reliable source, making startling disclosures concerning the plots of the Stokes party. These advices assert that it is the intention of Stokes to assemble a Legislature of his own, at Nashville, organizing a State government, and calling upon Gen. Cooper for assistance. Gen. Cooper is said to be connected with the conspiracy, and the office-holders and municipal authorities of Nashville, also. The Secretary is said to be pursuing payment (?), but is said to have the approval of Boutwell and other Republican leaders at Washington. In lieu of the military, which is being disbanded, Cooper is expected to be backed up by the Grand Army of the Republic. The object of this movement is to create a conflict calling for the interference of Congress, which will be memorialized in regard to the subject. It is reported that the Administration will protect Stokes and his party till Congress meets.

Col. Haynes, Chairman of the Republican Committee, of the regular organization, of Texas, has addressed an appeal to Mr. Claflin, Chairman of the National Republican Committee, against the recognition of the Houston organization, which nominated Gen. Davis. He publishes a letter of Gov. Pease, which states that President Grant assured him that he would not interfere with the Texas election.

Yellow Fever at Halifax.

HALIFAX, Aug. 3.—The gunboat *Eclipse* has arrived at Rio Grande. She had eighteen deaths by yellow fever. The frigate *Barnetta* has also arrived with yellow fever aboard.

Cuban Affairs.

WASHINGTON, Aug. 4.—Cuban letters of the 26th of July state that the insurgents have a large number of prisoners, who are held as hostages for the proper treatment of the Cubans captured by the Spanish, and this fact has caused a cessation of the execution of prisoners which has hitherto been the policy of the Spaniards. Quesada has completely destroyed communication between Puerto Principe and the coast and the telegraphic communication with Havana, and were it not for this condition he would have occupied it some time ago. Every effort of Lettona to open communication has been unsuccessful. In these attempts the Spanish loss has been double that of the Cubans. The loss of the former is secret. It is reported that Lettona's entire effective force does not exceed 4,000, while Quesada has near 9,000, well armed and disciplined. These letters give accounts and numerous rumors of minor contests in which the Cubans were invariably victorious. General Jordan reports himself and troops in excellent condition, and expresses entire confidence of success.

Miscellaneous.

NEW ORLEANS, Aug. 2.—The ship *Pauline Durrel*, for Liverpool, took fire on Southwest Pass bar, this morning. The water tugs filled her with water and saved the ship, which was but slightly damaged. The cargo was considerably damaged by water.

PITTSBURG, Aug. 2.—Rev. S. Linn, who has been on trial the past week before the Ohio Presbytery in this city, charged with unministerial and immoral conduct, was acquitted last night of all charges. The trial caused great excitement and the verdict gave great satisfaction, as public sympathy was decidedly in his favor.

HARTFORD, Aug. 2.—The funeral of Hon. Isaac Toucey was largely attended in this city this P.M. His remains were take to Cedar Hill Cemetery for burial. The Hartford county bar attended in a body. Among those present, were Governor Jewell and ex-Governor English.

A serious accident occurred at the Ohio Falls Bridge this morning by the capsizing of a yawl belonging to the steamer *Mollie Elbert*, which resulted in the drowning of a man named Murray and the narrow escape of Captain Pink Varble and four others.

The *Evening Express* contains the following: We have ugly reports from Casey county. In that region, the Regulators, according to this rumor, have been at work and blood has again been shed. We are told that a gang of some thirty men made an attack on a house owned by the Powse party in Casey, and shot and killed three men and one woman. No other particulars. This is the same gang that have been operating in Anderson and adjoining counties.

BY ATLANTIC CABLE

DUBLIN, Aug. 2.—There was a great demonstration in Limerick yesterday in favor of the Fenian prisoners. Twenty thousand people marched in procession with bands and banners. The meeting was addressed by various speakers. Letters to Gladstone were adopted demanding the release of those now in prison. The proceedings were most enthusiastic. No disturbance of the peace occurred.

LONDON, Aug. 2.—Gladstone, whose health is much improved, attended the sitting of the House of Commons this evening. He was greeted with great cheers. Fortescue, Chief Secretary for Ireland, informed the House that during the recess the Government would consider the desirability of purchasing the Irish railways.

MADRID, Aug. 2.—A letter says State affairs in Spain have a disquieting prospect. Carlists are full of gloom and confusion. The Government has no fear of the success of the Carlists, but it does not think all is lost for the Prince of Asturias.

PARIS, Aug. 2, Evening.—A draft of the *Senatus Consultum* is completed. It gives the Emperor and Corps Legislatif the initiative in making laws. Cabinet Ministers can be members of the Senate or Corps Legislatif. The sittings of the Senate are to be public, each body to make its own regulations. Members of both chambers have the right to address interpolations to the Government. No amendment to a law is to be adopted unless it has been previously referred to a committee charged with the duty of examining the project.

LISBON, Aug. 3.—The mail steamer from Rio Janeiro, July 9, has arrived. The latest news from the ports of Paraguay is interesting, but battles are indecisive. The rear guard of Gen. Barreta's column was cut off some time ago, while making an abortive attempt to cross to the Tebucary and march on Villa Rica. It was supposed they were all made prisoners by the Paraguayans, but they have since returned.

DRESDEN, Aug. 3.—A dreadful accident occurred yesterday in a coal mine in the northern district near this city. Over three hundred persons were killed outright. No particulars, but the accident is said to be attributable to stormy weather.

MADRID, Aug. 2.—The Captain General of Madrid addresses a letter to Regent Serrano and Gen. Prim in which he says: "I took part in the revolution hoping to see morality, law and justice succeed against former abuses. It is now months since the revolution was accomplished. My hopes have been deceived. Greater abuses and wide spread immorality, deplorable anarchy and disorder which it is absolutely necessary to put to an end prevail. The constitution having proclaimed monarchy, the immediate choice of a King is indispensable. If the Government does not shortly consider the question I shall abandon all hope of consolidation of the revolution and retire to private life." The letter was read in the Council of Ministers, and created a profound impression.

LONDON, Aug. 2.—A company is organizing to lay a cable from Scotland by way of the Orkneys and Faroe Islands to Quebec. When completed, the line will probably be purchased by the Post Office Department.

The Commissioners of the World's Fair of 1851, have issued a prospectus of an International Exhibition of Fine Arts, Industrial Arts and Inventions in 1871.

LONDON, Aug. 3.—The coming international boat race is still a matter of great interest. The London press generally comment unfavorably on the style of the Harvard crew. The latter were out again last evening on the Thames. They used a boat of London make, practiced much better than before and attained a higher rate of speed than with their own boat.

CARLIN, Aug 4.—A firm in this city received instructions to day from a mercantile house in Treasure City to contract for the transmission of 300,000 pounds of freight to be transported over the new road to White Pine. The anxiety of the White Pine merchants to have their goods hauled from here is owing to the superiority of this road over any other and the readiness of teamsters to travel over it.

We have had a succession of heavy thunder showers for the last four days.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Aug. 2.—The Democratic Municipal Convention met last night, electing S. F. Butterworth temporary chairman and a committee of three on permanent organization. After recess the committee reported Dr. J. C. Short Chairman, Lloyd Tevis and Dr. A. J. Bowie Vice Presidents, and I. McGraghan and A. J. Coghill, Secretaries. The Convention nominated F. McCoppin for Mayor by acclamation, and adjourned to 8 P. M. to-day. The Judicial Committee, which also held a meeting, electing Judge Jno. McHenry temporary Chairman, and Frank Lawton Secretary, appointed a committee of thirteen on registration and adjourned till 8:30 P. M. to-day.

The Democratic County Committee met last night to receive declinations and fill vacancies in either of the nominating conventions. Five resignations were accepted and vacancies filled. Committee adjourned subject to call.

The ship *Edward*, which arrived to-day from China, brought 250 Chinamen, who were escorted to their destination by the Chinese Protective Society.

The Board of Supervisors last night refused to appropriate $5,000 for the fireworks, to be used upon the return of Chief Engineer Whitney.

The San Francisco Commercial Association held a meeting at 3 P. M, yesterday. The following report of the committee appointed to report a plan to make time sales of goods on notes, after a lengthy discussion, was adopted:

Resolved, That our agents be signed by all mercantile firms in favor of the settlement of all sales of goods by promissory notes, binding themselves to require the same from all their customers without exception, within thirty days from date for sale of all goods made after January 1st, 1870, which in the aggregate amount to the sum $250 or more.

Resolved, That the breaking of the agreement signed by any merchant, shall be deemed dishonorable, and the name of such person shall be reported in the rooms of the Association, and also transmitted to all members of the Association.

Resolved, That the President call a general meeting of the mercantile community of this city to consider the above resolutions.

The tug-boat *Joseph Redman* was discovered on fire this morning at 12:30. It was damaged $1,000; fully insured.

Jno. McClosky fell from the platform of a Long Mountain car last night, and the wheels passed over him, mangling one of his legs and breaking one arm. No blame is attached to any one.

The Assessor of Internal Revenue has fixed the gold rate of Legal Tenders for the current month at 74 cents.

It is rumored on the street to-day that the Merchants' Exchange Association bought out Baugh's Exchange on Battery street.

GENERAL NEWS ITEMS.

Geo. H. Pendleton has declared warmly in favor of the nomination of Gen. Rosecrans.

It is stated that in England Messrs. Cassell's "Wonder of the World" has reached the extraordinary sale of sixty thousand copies per week.

It is a remarkable fact, and one which shows how dependent a large portion of the South have hitherto been upon the mechanical resources of the North, that there is not a paper mill in either Louisiana, Texas or Mississippi.

The wisdom of the President's appointments in the Internal Revenue service, as well as in other departments, is daily becoming more and more noticeable. Under the Johnson *regime* seizures were few and far between

Surely the day is done!
'Tis set of sun.
Long fall the shadows from the snowy hills;
Not yet have waked the sleepy little rills;
But softly fair
Float everywhere—
Although the day is done!

Ah, yes, the day is done!
And one by one
The ghosts of twilight flit across the sky;
Indoors, the fire-elves on the carpet lie.
Tired of the play,
The children say
Because the day is done.

We know the day is done!
Our feet have ran
Unresting in the path that duty made,
Treading on thorns, of dangers not afraid;
And rest is sweet
Though night hours fleet;
And day again comes on.

The day of life is done!
And set the sun!
Eyes dim to fairest lights that each can show;
Ears heed! , though entrancing music flow.
And marble brow
Unwrinkled now—
Indeed, the day is done!

But is the day not done,
And set the sun?
When seas of amber light transfuse the air,
And Paradise flowers bloom everywhere?
O'er purple hills
The sunrise thrills—
Heaven's day is just begun!

The Alaska Sting.

rom "Strikers of the W[illegible]gton Lot[illegible]ty," by James Parton, in the Atlantic Monthly.]

The whole of the Alaska scandal was the ork of unnecessary strikers. I say this thout reserve, because accident placed me ... at different times to get ... information both from the strikers d the strikers. Readers remember proba, y, the publication of the paragraph which ported that the Russian Minister has sent me only five millions of dollars, and had ...ended the remainder—two million two ...red thousand dollars in gold—in subsidizing the press and buying votes. There are two atoms of truth in this huge, manyded lie. The New York correspondent of the Boston ... writes of the Harpers:

The inexorable rule has been this: those ... authors that we reprint nobody else ... if any one does, we will kill their ... by selling ours below cost. So resolutely have they pursued this plan that every ... who has crossed their path has had ... to rue it of his temerity, and others who would have been glad to throw down the ... yet to them, have wisely let "I dare not wait upon I would." The policy pursued by the ... has ... harsh, but probably ... any other plan, with their long and ... list of English authors, every unauthorized publisher would have had a pickingin their ... es. A history of the different warfares in which they have been engaged would reveal not a few interesting facts in literary history.

Their large capital has for many years enabled them to be indifferent whether special issues were profitable or not, and they would unhesitatingly throw away large sums, if necessary, to kill off a rival's book. The most ... ing and lively of all their contests was that with Winchester some twenty years ago. Winche... was ruined in the end, but for a long time he ... a plucky fight. This was in the height of the cheap novel mania, when Bulwer, James, Mrs. Gray, Miss Pickering, and other popular novelists were turning off fiction by steam. Every steamer brought over a batch of English novels, and sometimes in less than thirty hours both the Harpers and Winchester would have editions in the market—the one that was two hours ahead getting the cream of the sale. Newsboys in those times used to dash through the ... with a new novel just as they did during the war with a war "extra," and people bought the books in almost as high an excitement. The moment a copy of a new novel by Bulwer or James was received it was hurried into the composing room, the doors locked, and not a soul, allowed to leave the premises until the book was printed, and ready for the ...lers. Those were spicy times in the bookworld.

MISCELLANEOUS FROM THE DEMOCRATIC PARTY.—We learn that the "Secret Service Fund" of the Democratic party, is being put to a novel use. The Fund is small—but will work as far as it goes. Democrats are apprehensive that the time will come when Chinamen will become voters in the United States. On the strength of this, the funds which should be used among the poll "howlers" on election day in this State, are to be parried by Commissioners to China for the purpose of establishing on the "outer walls" a Democratic organization—and the Chinamen, who arrive by thousands on this Coast, will be ripe Democrats. Geo. Gift and other Southern gentlemen are now on the way to this Coast and China, to procure Chinese laborers—who will be Democratic voters (?)—to go South and take the place of the white foreign laborers now there employed. Of course this will ... the approval of our German and Irish fellow citizens who daily toil for their bread and vote the Democratic ticket.—*Sacramento Record.*

The Mandarin in Burlingame's troupe, who writes up the manners and customs of the various countries for the Chinese archives, has given the Paris correspondent of the London *Post* a translation of his last letter. In it he speaks of the table habits of the Paris barbarians. "We have dined," he says, "at their tables, where the stomach is expected to receive with pleasure some thirty different objects of food, and perhaps ten different liquids. The French and other foreigners eat until they feel very uncomfortable, and require much medicine drugs, as may be seen by the many chemists' shops of this city. They have the same capacity as our pigs. Had you been here the other night, and observed how these people rudely scrambled for the food at the supper table when we gave our fete! They put their hands violently on the dishes, and disputed with each other most roughly." In telling about Burlingame's ball he writes: "Oh! if you had seen the women at our ball! They came half undressed; that is to say, the upper part of the body was wholly exposed, but they are jealous of showing their feet, and seem to desire to hide the floor also, as each woman drags about with her a long robe, on which it is not etiquette to place your shoe. Their eyes are painted round (not all of them,) and they use coloring for the lips and a pearl powder for various exposed sections of the frame. They purchase the hair of the dead, and artists work it into the various designs; then the women put it on their heads with flowers; and yet they are not a dirty people. The high-caste women are allowed every license. At our fete they were clasped round the waist by men they knew not, and danced with painful vigor, for it was hot."

A GOOD CHINAMAN.—Tong Duck Chung, a Chinese merchant of this city says that he made the last payment of $25,447,39, coin, for duties on China goods imported by his house last summer in French ship *Jeannie Alice* from Hong Kong. This same merchant does not include duties paid by other China merchants on goods brought over in same ship at the same time. Bully for Tong Duck Chung;—he's a good Chinaman.—*Oregon Herald.*

Why in thunder does the *Herald* not demand that this "Tong Duck Chung?" be booted out of Portland. He is standing in the way of some Caucasian merchant, you see,—taking the bread out of the mouth of some white capitalist. Because "Tong Duck Chung" is a wealthy Chinaman, and the *Herald* bows to "Mammon," even if he is disguised with the skin of a "rat eating infidel." Where oh where are the friends of the down trodden Caucasian?—*Jacksonville Sentinel.*

The following circular letter has been printed and will be sent to all persons appointed on the Committee above referred:

PORTLAND, ——

You are hereby notified of your appointment as Committee for ——, to solicit subscriptions to the stock of ——, an association, to facilitate the dissemination of information calculated to induce immigration to Oregon, and to establish a Labor Exchange in this State. You will please observe that by the 21st article each subscriber who pays ten dollars or more becomes a member of the Association, and is invited to the meeting for organization and election of trustees.

The first election for trustees will take place at the Council Chamber in Portland, on Tuesday, August 10th, 1869, to which the members, and all subscribers to the amount of ten dollars, will have a vote, and are requested to be present and exercise that privilege.

Said meeting was inaugurated at Portland, but it is intended to benefit the whole State, and our citizens at large are requested to co-operate in ——ing it a success.

For ——, it will no doubt be fully explained by the 21st ——, as reports of such organizations in California and other States have been published in the newspapers, and may be got to the attention of our citizens.

Trusting that you will be pleased to use some endeavors to aid the movement, and that you will forward an early ——,

I am, Sir, very respectfully,
C. P. FERRY, Secretary.

Portland, Aug. 5th, 1869.

The preliminary examination of Col. W. —— on the charge of causing the death of A. D. —— was proceeded with before Justice Bull, at 10 A. M. ——, at the Council Chamber. Drs. C —— and Prosper ——, who attended upon the Coroner's inquest upon the body of Mr. Miller, and who were present at the post mortem examination, were sworn. They testified without variation to the facts that a wound was found upon the body over the ear and head; that the cause of death was the rupture of an aneurism of the large artery of the brain; that the injuries upon the head were not sufficient to cause death; and that they had nothing to do in producing death; that the aneurism had been of long standing; and that Miller had been for a considerable time, to die suddenly; that death was certainly instant upon the rupture; that there was a large effusion of serum, considering the disease of the arteries, and the heart, which had not ——, etc. The proof was clear and ——— that the blows inflicted by Col. Gibson upon the head, did not have anything to do in producing the rupture of the aneurism, and the defendant was therefore ——.

INQUEST IN THE CASE OF MRS. MCKENNAN.—The jury called by Dr. Poppleton to hold an inquest upon the body of Mrs. McKennan, yesterday, returned the following verdict:

PORTLAND, Oregon, August 4th.

We, the undersigned jurors, summoned by Dr. R. Poppleton, Coroner for Multnomah county, State of Oregon, this 4th day of August, A. D. 1869, do find that the woman called Hattie McKennan, and that she came to her death on or about 7 o'clock P. M., August 1, in the city of Portland at the Ivy Green saloon, on the west side of Front street, between Yamhill and Taylor, State and county above mentioned; and we do find that her death was caused by an abortion, being such as to make it, in our mind, tolerably clear that the abortion was produced by some person, though unknown to us.

U. S. DISTRICT COURT—DEADY, JUDGE.—Proceedings of Monday, Aug. 2d:

Grand Jury empaneled and David McNally appointed foreman.

In the matter of Randall & Sunderland; in bankruptcy; on motion of Register on the claims of J. F. Strowbridge and J. R. Foster, confirmed.

In the matter of H. E. Harris; involuntary bankruptcy; on application of petitioning creditors, this cause dismissed.

Tuesday, August 3d—John Catlin, assignee, &c., vs. John R. Foster; motion to strike out part of answer argued and submitted. Friedenrich for plaintiffs; Logan for defendant.

The Grand Jury presented three indictments: against Thomas Stinson, for smuggling; against Jacob Ripley, for selling liquor to Indians, and against Chas. Quintaro, for selling liquor to Indians.

United States vs. Thomas Stinson; defendant arraigned; plead guilty and was fined fifty dollars and costs.

Wednesday, August 4th—Grand Jury came in and presented one bill of indictment.

CONVEYANCE OF LYTLE.—We mentioned yesterday morning that Rev. W. H. Roberts had arrived from Idaho, having in charge one Lytle, an insane person, whom he desired to put in the Insane Asylum of this State. The matter was before the County Commissioners, yesterday, who refused to admit Lytle to the Asylum. The name of the insane man is Ezekiel Lytle, the son of the Lytle who once kept a ferry across the Willamette river a few miles below Boise City. He has been insane for many years, and was sent to the Asylum several years ago from Douglas county. He was subsequently taken away by his brother and taken to Idaho; was again sent here, and the authorities of this State, and sent him back to Idaho. He has been kept in Idaho for about two years, and now they send him the second time. Our Commissioners have decided this second time that he is not a citizen of Oregon, and that they cannot lawfully give him a place in the Asylum. He will probably be sent back to Boise City.

STEAMERS.—Several of the steamboatmen with whom the traveling public has for years been familiar, on the Columbia river route, have recently received promotions [illegible] in all the cases so far as we know. Captain Shaw, late in command of the *Okanagan*, running to Astoria, has received an appointment as river pilot. Captain Hoyt, for a long time purser on the boats running to Astoria, has received command of the steamer Rescue, and is hereafter Captain Hoyt. Mr. Green, formerly mate on the *Okanagan*, has succeeded Captain Shaw in the command of that steamer. We congratulate the parties, each and severally, upon their advancement and fortunes.

BUILDING.—Work on Capt. Ankeny's brick buildings, North Front street, is progressing rapidly. The fronts present a fine appearance. We learn that Capt. Ankeny has in contemplation the erection of another large brick building on Front and Ash streets. It will extend from Front through to First and will cover half a block. A portion of the material has been been obtained. If all the arrangements can be made it will go up this fall, but if not, it will be commenced early next spring. This will be an important improvement in that part of the city.

COUNTY COMMISSIONERS.—Proceedings of the board, yesterday

C. P. Bacon, R. J. Ladd and John Green appointed viewers of proposed county road from the south line of the county, at a point where the road from Aurora via Kyle's ferry intersects the same to Milwaukie ferry, viewers to meet at the White House, Aug 12th

Communication received from O Risley, ex Recorder, relative to attorneys' fees remaining in his hands Mr R instructed to pay same into County Treasury

Petition of Thos Atkinson for license to sell liquor, deferred for further consideration

Application of James Irwin for admission to County Poor House, denied, applicant not being a resident of the county.

Benj. Stark vs. L M Starr, continued till Wednesday for trial

August 4th—Benj Stark vs L M Starr, after hearing evidence on the part of the plaintiff, defendant on motion was allowed to amend his answer on terms, and the cause was continued till Thursday in ruling

HELP FOR A. D. MILLER'S FAMILY.—We learn that the Directors of the Portland Dray and Hack Co were called together yesterday by the President, Mr Bills, to take measures for the relief of the family of A D Miller, who are said to be in destitute circumstances—the eldest boy being quite sick and Mrs Miller in delicate health. A committee of three was appointed—C Bills, Geo H. Flanders and Jacob Mayer—to circulate a subscription. Those gentlemen will call upon our people to-day.

FIGS—SECOND CROP.—We have in this office a small branch of a fig tree, containing a couple of well formed figs, cut from a tree in the garden of Mr Peters, at the lower end of this city. The fruit is the second crop borne this year, and appears to be as likely to mature as the first. The tree stands out all winter without protection. The success Mr Peters has had with figs, is proof enough that they can be profitably grown in Oregon, in favorable locations, at least

COUNTY COURT—MARQUAM JUDGE.—Proceedings of Wednesday, August 4th

Millard & Van Schuyver vs Fritz Miller, judgment for want of answer

The application of Rev. W. H. Roberts to have Ezekiel Lytle, an insane person, placed in the Insane Asylum of Oregon, refused, because said Lytle is not a resident of Oregon but of Idaho Territory

PATENTS.—A patent has been issued to W. J. Funk and H. B. Ostman, of this city, for a combined harrow and cultivator. We have not seen the implement, but learn through a San Francisco paper that the patent was issued July 20th. A patent has also been issued to James Walton, of Roseburg, in this State, for a fleece bundling apparatus.

A FIRST CLASS NOTICE.—We find in the Paoli (Iowa) *Advertiser*, a first class notice of the Rev. W. F. Boyakin from which we infer that the gay and festive old codger has been again indulging in some of the vices which gave him in Oregon such an eminently unenviable notoriety.

GONE.—The *Commercial* says. "Portland is going ahead at a rapid rate, notwithstanding the efforts that disinterested 'croakers' on the 'outside' are making to run the place down." From which we conclude that, that "incubus" has gone from our gaze.

BASE BALL.—The Athletic Club and the Union Club, both of this city, played a match game, yesterday, which resulted in a victory for the former by 81 runs to 26 runs.

FLAG PRESENTED.—At the meeting of Vigilance Hook & Ladder Co, on Tuesday evening, Mr Jacob Mayer presented the Company with a beautiful flag.

A CHALLENGE.—The First Nine of the Pioneers challenge any other nine to meet them at the grounds at East Portland, this P. M. at five o'clock.

SAILED.—The bark *Oakland* was towed down yesterday to Astoria, where she is to load with lumber for Hong Kong.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

BUSINESS IN SAN FRANCISCO.

The Sacramento *Union's* San Francisco report of July 29th gives the following:

There has been no improvement in business since my last report. The semi monthly collections which were made yesterday were met with difficulty by a large number of firms, owing to interior customers failing to remit. I am informed that several parties had to pay 1½@2 per cent. per month for accommodations to bridge over the present "dull spell," as some parties here are pleased to call the present general stagnation in business. It does not appear very clear to me when this "dull spell" is to pass away under the present system of doing business. It is vain to calculate on any permanent improvement so long as our watchful and energetic competitors on the other side of the Rocky Mountains can undersell us in our own markets. This is just "what's the matter" with us, and causes business to be dull among importers, jobbers and auctioneers. The interest on money, rents, costs of labor, transportation, and of every other expense incident to business are too high, and must be reduced before we can hope to successfully compete with the merchants, manufacturers or capitalists of Chicago and New York.

Latest advices from New York report an increasing demand for bullion for export, which has had the effect of drawing large amounts of both bars and coin from this coast. The aggregate remittance by Pacific Railway during the week exceed $1,125,000. The mint is not making money; will probably not make any for the next twenty days, owing to change of officers and settlement of accounts. The supply of bullion from the interior has been very light. During the week $152,584 has been received from Oregon, most of which is destined for New York and London. The rate of interest at the bank continues firm at 1½@2 per cent., and 2@3 per cent. on the street.

In general markets the same unsatisfactory conditions of affairs, referred to so repeatedly since the completion of the Pacific Railroad, continues. Outside of supplying the ordinary necessities of 150,000 people, there is literally nothing doing. The interior and coasting trade has fallen off in a most extraordinary manner for this season of the year, while the imports of merchandise continue enormous. The custom duties collected during the week foot up nearly $250,000, a drain of that amount from the channels of business.

Bags continue to drop in price, owing to the heavy stocks; 22x36 hand sewed burlaps may be bought for 10c cash. At auction they sold for 9c. Candles continue very dull. San Francisco are 16½@17c, Grant's at 17c, Schmidt's at 16c Gros & Co's at 18c, Macy's at 16½ and Harkness' patent wax at 19c. Case goods of all descriptions are in excessive abundance and offering at prices which favor buyers. Coffee is held with less firmness. Rio may be bought at 18½, Manila at 18c, Costa Rica at 19c, Central American at 18@19½c, and Java at 25@26c. Dry goods, owing to the dull times and peculiar weather of the season, are very quiet, but not so stagnant as nearly all other descriptions of goods.

Oregon salmon is firm at $5@5 50 in half bbls, and 9@9 25 in bbls.

Fruits of all descriptions are dull. The exports per railroad have no influence in relieving the market of surplus. Eastern cranberries are weak 80@90c ₱ gallon, according to package. There are very few Oregon in market, which sell at 75@80c₱ gallon. Oregon dried apples are offering at 7@8c, with large stocks on hand. California dried peaches sell at 8@9c.

Iron is lower; Scotch and American pig is offered at $36@37 50 ₱ ton. This reduction is made to cut off the supplies from Oregon, which are beginning to affect the market. The *Almatia* brought 2,5 tons on her last trip from Portland. The Oregon Works can make iron with profit at $40 ₱ ton; below that figure it is more profitable to keep the furnaces idle. The ring that controls the iron market here has reduced the price $15 ₱ ton in order to shut out the competition of home manufacture.

Oils are all weak and downward. China nut has declined to 97½@95c; Devoe's and Downer's coals are obtainable at a decline to 45c, Pratt's, an equally good article, is offered at 42½.

Sugars are firm and active. It is reported that the crop in the British West India Islands has been seriously injured by drouth. San Francisco yellow C has advanced ½c and Hawaiian grocery ½c ₱ lb. The former is now quotable at 13@13¼c; the latter at 12½c. Eastern refined sugar is offering at 14½c.

Teas are dull but firm. Japans at 60@70c, China at 45c@$1 15, according to brand and package

Flour—The export demand continues very urgent. Upwards of 100,000 sks were contracted for during the week, chiefly for China, Australia and South America. There are also orders on the market from the Atlantic States, Australia and Europe. Oregon, of good brands, is dearer than our best local made. Commercial, Imperial and Salem, the best Oregon brands, are quotable at $5 75@6. Sales of Commercial, in bbls, are reported at $6 25. This is not complimentary to the San Francisco millers—whose best brands are offering at $5 75@5 87½, while shipping extras sell at $5@5 50.

This is a new Electro Plating process superceding the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.
Knives, forks and spoons stamped "1847 ROGERS BROTHERS AXIS," are Electro Plated by the new Patented Process.
We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. THURSDAY MORNING, AUGUST 5, 1869.

Vallandigham and Rosecrans.

The Democratic apostle, Vallandigham, in his paper, the Dayton (Ohio) *Ledger*, gives his theory of the history of his party and the vicissitudes it has encountered during the last eight years. A glorious reaction has several times been at hand, he says, but false friends have thrown it away. In 1867 the reaction came in full and with might and power, and it seemed certain that it would sweep the United States. Beginning with Connecticut, the "Peace-Copperhead Democracy,"—the phrase is his,—without yielding an inch, gained victory after victory all over the country; and the Presidency, with the future control of the country, was assured to them. But in the very hour of triumph the cry of 'policy," "we must silence and conciliate the Republicans, "we must not put forward odious men," went up in every quarter from the timid, selfish and treacherous of the Democratic party—the men who had been half for the war and half for peace—the men who had pretended to approve of the war but denounced at every step the only means through which it could be made successful as a military enterprise; and all this for the purpose of putting the Democratic organization and spoils of office into the hands of those very men and excluding the live men of the party who had openly opposed the war upon the fundamental principles of Jefferson and his followers. From that hour the shadow on the dial of Democratic victories went back. Betrayal, incapacity, vacillation, inaction and mismanagement marked every step, till the splendid triumphs of 1867 vanished into thin air, and the Republican party won the field in almost every State.

The apostle then goes on to show how the party being demoralized and having lost its old leaders of war times, these latter resolved that the war Democrats should go to the rear with them. If "odious men" were to be kept out of sight to placate the Republicans, he asks, "was it either fair, just or profitable to do it in favor of men who were just as 'bad,' but not as bold as they—men who, lacking the courage to speak out their sentiments and purposes, were yet just as obnoxious to Republicans as 'peace men and Copperheads,' without commanding the same fear and respect, and incapable of gaining, using, or maintaining victory over their adversaries." The earnest, honest men of the Democratic party, he says, meaning men like himself, would like to be in front of the party, but if that cannot be, then Republicans shall have the front seats, and the 'Democratic half-cuts' shall be behind. The gist of the whole article is that Rosecrans was nominated to spite the War Democrats, though Vallandigham don't expect that he will be elected. But he wants to make them sick of the policy of rejecting the men who stood by the party while it was under a cloud during the war. Though he don't support Rosecrans, he would prefer him or any Republican as a candidate to one of the treacherous "men of 'policy'" men whom he describes.

The World Mov

Some w[illegible] ago we noticed the publication in the *Commercial* of this city of a number of letters written by one of the more intelligent [illegible] of Democrats on the political situation. We now find in that paper another communi[illegible]cation from the [illegible] pen. The writer says that the question of negro suffrage is settled by the action of the Southern people themselves. He commends the Southern Democracy for not opposing it still further, but declares that their acquiescence in it has made it a finality. We quote from the letter:

The [illegible] of the late election in Virginia have settled the question of the enfranchisement of the black race, and this has been done by Democratic votes, that the crowning measure in all this question has been carried by Democrats. And it [illegible] Democrats in their papers, [illegible] public men, but tell us Northern Democrats, there is [illegible] of the past few years have compelled us to overlook all our preconceived ideas and plans upon our party banner, 'Negro suffrage,' [illegible] members of our State Legislature, Negro members of Congress,' and to nail this measure to the mast-head that no change can be made after the war, we are for the Fifteenth Amendment—and this is our own business.' We may say that this ingratitude to Northern Democrats for a long and determined fight against the enfranchisement of the negro is unexpected—is an abandonment of principles dear to our hearts, but we are compelled to submit. They have 'submitted to the situation,' and with them be the impossibility.

And not only is this writer ready to "submit to the situation" since it cannot be mended, but, as if foreshadowing the future policy of his party, he plainly recommends the adoption of such a policy by the Democracy in Oregon as will secure the negro vote! Observe how adroitly the case is put in the following paragraph:

Before the next election in Oregon, the fifteenth amendment of the Constitution will be adopted. We must meet the negro at the polls—standing on the platform with ourselves. The black population is gradually increasing upon us—it is due to both to say that it is a moral, industrious and intelligent class of our people—with parties so equally divided as they are in Oregon, it would not be strange if the colored voters of our State—for they will then be voters—would decide the election. This should now be matter of thought. The Southern Democrats have voluntarily accepted the situation, and have in effect compelled us to accept it. Shall we be governed by the dictates of wisdom, or shall we throw away the advantage within our reach? These matters are subjects of thought and discussion with the class we speak of. They are well advised of political events. Treat them properly and justly, and we will have their good will.

Here we have it! According to this writer the Democratic party of Oregon will go into the election next year, courting the negro vote! By the fifteenth amendment probably one hundred and fifty colored men will be enfranchised in this State. It is well known that the State is almost evenly balanced between the two parties, and this writer, who is evidently a shrewd politician, thinks it probable that the colored voters will hold the balance of power. He therefore advises his friends to take such a course as will secure their good will and bring them into the Democratic party! The world moves, certainly.

Who would have supposed that we should so soon see the "white man's party" in this State bidding for the negro vote! Only to think that next year we are likely to see Rev. Joseph Smith, who made the canvass last year against the "nigger," on the stump again as a candidate pleading for the votes of "our colored fellow citizens!" It is evidently the intention of the Democrats of Oregon to make an effort to get on the same platform with their brethren in Virginia. Things are "working."

The election in Kentucky has resulted in the usual Democratic victory. The Republicans are said to have fifteen or twenty members in the Legislature, quite as many as on former occasions. In the next election in Kentucky the colored people of the State will vote, and considerable changes may be expected then.

Freebooting as a National Policy.

Tammany has prepared a terrible indictment against the administration of General Grant. The *gravamen* is that the laws are enforced by the Administration, and turbulent adventurers and plunderers are not allowed to make the territory of the United States a base of operations against the territory of other nations with whom our country is at peace. Citizens of the United States have organized warlike expeditions to sail to Cuba, and the authorities, as required by law, have stopped them. Tammany calls this tyranny and pusillanimity. Some Americans who have eluded the vigilance of the officers have gone to Cuba on these unlawful expeditions, have been arrested by the Spanish authorities and dealt with as they deserve for their attempts against the peace and sovereignty of Spain; and Tammany condemns President Grant for not taking vigorous measures to prevent and punish such "outrages" on American citizens!

Other citizens of the United States have been arrested in Ireland and Canada for conspiring against British authority in those countries, and Tammany is indignant because the Administration has not rebuked this unwarrantable interference with the "sovereignty of American citizenship!" Tammany, moreover, promises "succor and comfort to the struggling people of Cuba" in so far as it can be done without incurring the penalties of the neutrality laws. Their quarrel with the President grows out of the fact that he is enforcing these laws and is determined that our country shall not be a place of refuge for agitators and freebooters who have hostile designs to carry out against other nations. The doctrine of Tammany is that the American who is arrested in a foreign country for a violation of its laws is "an outraged American citizen," and that our Government is "imbecile" if it does not insist on the right of its citizens to violate the laws of other countries with impunity. Tammany is obliged to resort to such disreputable demagogism as this to retain control of the large foreign vote of the city of New York.

In General.

The *Commercial*, which a few months ago was battling fiercely against the Chinese, now gives up the contest. It says: "All the efforts of newspapers and speakers to beat back the waves of Chinese immigration must result in failure. The South in a few more years will be unanimously in favor of Chinese labor." The world *keeps* moving. We expect to chronicle the conversion of the *Herald* next.

The fact that many persons in and about New York have suddenly discovered that they have larger incomes than they had reported to the Assessor is attributed to the publication in the *Tribune* of the names of many persons reputed rich whose incomes, as returned, fell below the sum of one thousand dollars. Thousands of gentlemen are finding that they have incomes, which, "by the merest oversight in the world," they had neglected hitherto to return to the Assessor. They shrink from facing the whole public and stating an income notoriously below the truth.

The trip of Koopmanschap, the Chinese importer, to the South, was a "progress," a "continued ovation." From the moment when he started from San Francisco to attend the Memphis convention, there was hardly an overland breeze which did not bear tidings of Koopmanschap. In St. Louis and the other commercial cities where he stopped, his reports of what Chinese immigration has done for the Pacific slope were so cheering that everybody began to attend labor meetings and hurrah for the Chinese. All the leading Democratic journals commended the project, and even Brick Pomeroy's *Democrat* pronounced for it.

The hod-carriers on a new building in San Francisco, says the Sacramento *Union*, struck recently because the employers engaged two men who were willing to ten hours a day. These hod-carriers are only acting in imitation of the general conduct of mechanical and laboring men throughout the United States. The navy yard hands struck not long ago in Washington because a negro was given work, and other strikes for no better reason have become the order of the day. The fact is the laboring men have laid down the tools and implements of their trades and become themselves the handy tools of the most unscrupulous demagogues, of all parties. They are put up and sold for their votes, the highest bidder taking them.

We have a sad tale for the ears of Hon. Joseph Smith, our "Conservative" Congressman; and if he and his political friends have any tears to shed they should prepare to shed them now. The New York *Times* of July 23d says it is denied that "Dr. Norton, the colored Conservative candidate for Congress in the First District of Virginia is elected, and it is said that Captain Ayres, the Republican nominee, has nearly 2,000 majority." We fear that this a "Radical trick" to keep an "esteemed fellowed citizen of color,"—so-called in Democratic *patois*,—out of Congress. We commend this case to Hon. Joseph Smith, and hope that he will see to it that his fellow Conservative member of Congress, Hon. Dr. Norton, (colored) of Virginia, has his rights against this white Radical who is trying to get the seat.

THE WEST.

Gen. John S. Chipman, a noted Democratic politician of California, died at San Jose a few days ago.

All the honey bees within a circuit of 25 miles about St. Louis have simultaneously deserted well filled hives and disappeared.

In Alameda county, California, a boot and shoe factory is employing Chinamen and is finding them exceedingly serviceable.

The Democratic ticket in California has split in Amador, Calaveras, San Diego, Los Angeles and Sonoma, with strong symptoms of a bolt in San Francisco. The *Call* and *Herald* acknowledge that the chances are in favor of the Republicans carrying that city, and when *they* make such an admission the chances are decidedly rough for Democrats.

Miners at White Pine, Nevada, are unwilling to work for $4 per day. Heretofore $5 per day have been paid, and now all are compelled to stop work because the majority are unwilling to accept such wages. Singular, is it not, that men strike on a basis of $4 per day within five days' travel of New York and within sixteen days' travel of Europe? It is significant, however, when mines are sufficiently rich to pay $4 per day for labor.

An Owyhee paper says that on the evening of July 29th a row occurred at Simon's Restaurant, in which H. B. Mains and another man were engaged, when Frank Babb interfered against Mains, and it is said, struck him. Mains crossed the street, got his pistol and fired at Babb, missing him, and accidentally shot a man by the name of Wm. Albion Jobinson, who happened to come round the corner at the instant, in the heart, of which he died in a few minutes. Johnson was a native of Bangor, Me.; aged about 26 years.

Constitution and By-Laws of the Board of Statistics, Immigration and Labor Exchange for Oregon.

ARTICLE I. This Association shall be known as the Board of Statistics, Immigration and Labor Exchange for Oregon.

II. Its objects shall be the collection of statistics of the State, and to the end of inducing immigration hither, to disseminate throughout the United States, and in Europe, reliable information of the resources and advantages of Oregon, and to provide a Labor and Employment Exchange.

III. The officers of said Association shall be a Board of Ten Trustees, a President, Vice President, and Treasurer, who shall be chosen by the Trustees from among their number, and a Secretary, who shall be appointed by the Trustees, and hold office during their pleasure.

IV. The duties of the President, Vice President and Treasurer, shall be those usually discharged by persons holding like offices under the general laws relating to corporations in this State.

V. The Trustees shall have charge and control of the business, property and funds of the Association, and may employ such persons as they may deem necessary to carry out its various objects, at such rates of compensation as they may see fit to allow. They may appoint from their number an Executive Committee of not less than three, of which the President of the Board shall be ex-officio Chairman, which committee shall have under the direction of the Board of Trustees the immediate direction of the affairs of the Association, and shall have such powers as the Board of Trustees may by resolution bestow.

VI. It shall be the duty of the Secretary to keep a record of the proceedings of the Association and of the Board of Trustees, and until otherwise directed by the Trustees, perform such duties as are hereinafter provided and pointed out.

VII. To the end that reliable information may be disseminated throughout the United States, and in Europe, of the resources and advantages of Oregon, the said Secretary shall from time to time, and as often as may be convenient, and in such way as may be suitable and economical, collect, record and preserve in a book, to be by the said Trustees or Secretary under their direction provided for that purpose, the statistics of the State—agricultural, commercial, manufacturing, mechanical, mines, and mining; instructions—religious and educational; with the rates of labor in all branches of industry in the State.

VIII. The Secretary shall in like manner collect, record and preserve, reliable information of lands to enter, pre-empt, for sale; and to rent or to crop, whether stocked or not, and to what extent improved; their distance from important routes of travel; their location, quality, quality, and adaptability to various crops and products, together with the facilities for transportation to market.

IX. The said Secretary shall ascertain in such manner as may seem best, as far as possible the number of male and female laborers employed and required in the several cities, towns, manufacturing and other business establishments, as well as upon farms and railroads within the State, and record and preserve the same; and receive applications for services or labor within the same, and other branches of industry, and as far as possible provide employment for all such as may seek, or be willing to receive it; as well as receive and give information where capital may be employed to the greatest advantage to the State and the capitalists.

X. The said Secretary shall monthly, and oftener, if by the Board deemed expedient, make a condensed statement of such information to be derived from the statistical tables or records herein provided for, as well as from any other sources within his power deemed reliable, as may be proper to be disseminated abroad, and after submitting the same to the inspection and supervision of the Board, or Executive Committee, if there be one, transmit the same to such leading journals, newspapers, periodicals, offices and individuals in the United States or Europe, as may, in his judgment or the judgment of the Board or Committee, conduce to the accomplishment of the objects of this Association.

XI. The said Secretary shall prepare circulars containing the objects and purposes of this Association, and cause them to be printed and circulated wheresoever he may think advisable, particularly on board of railroad cars, as well as upon ships and steamers arriving in or departing from any Oregon port, from or to the ports of other States or of Europe, and freely correspond with persons throughout the State who may desire to obtain labor or information.

XII. To further carry out the objects of this Association, the said Secretary, under the direction, supervision and control of said Board of Trustees, may form such connection and relation with the agricultural Society of Oregon, and of other States, as well as with labor and employment exchanges of different States, and in Europe, as in the judgment of the Board of Trustees may be conducive to the welfare and prosperity of this State.

XIII. To carry out the purposes herein contemplated, the said Secretary shall provide and open a book for subscriptions and donations, and collect the same, and all sums by him received he shall forthwith deposit in the Treasury of the Board, before which he shall as often as required, give an account of moneys received by donation and subscription.

XIV. The said Secretary shall collect, receive and provide for distribution, such seeds and other articles of foreign growth and manufacture as may be the subject of contribution, and distribute the same throughout the State in such manner as in his judgment may be best calculated to promote the general good.

XV. It shall be the duty of the said Secretary to collect and receive by contribution, specimens of growth, production and manufacture of Oregon, and provide for their display and exhibition in the cities of New York, Boston, Philadelphia, Baltimore, New Orleans, Chicago, St. Louis and San Francisco and such other places in the United States, and in Europe, as in the judgment of the Board may be conducive to the prosperity of Oregon.

XVII. It shall be an object of this Association to ascertain and point out the facilities for the transportation of immigrants to Oregon and as far as possible arrange for cheap and convenient transportation; and surplus moneys, if any there be in the Treasury, may be applied to the aid of distressed immigrants, and to the forwarding of such persons to places where they may obtain remunerative employment, and for such other purposes, not inconsistent with the objects of this Association, as the Trustees may from time to time direct; provided that moneys donated for any particularly specified purpose, shall in all cases be so applied.

XVIII. The Trustees may authorize any person or persons to solicit subscriptions or donations for the purposes of the Association, upon such terms and under such rules and regulations as the Trustees may impose.

XIX. The Association shall have a general office at some suitable places in the city of Portland, where its papers and records shall be kept and preserved, and where all persons requiring the assistance and advice of the Association may apply therefor.

XX. It shall be competent for the Board of Trustees at the next session of the Legislative Assembly to turn over this organization to the State upon such terms as the said Board of Trustees shall deem proper.

XXI. The necessary funds for carrying into effect the objects of this Association shall be raised by voluntary subscription and contribution, and all persons who shall subscribe to these articles and pay into the Treasury or to the authorized solicitor or solicitors for the purposes of the Association, the sum of ten dollars ($10) or more in any one year, shall for that year, be members thereof, and shall be entitled to vote at the annual, and all other meetings of this Association, in the same manner, and to the same extent as stockholders in corporations organized under the general laws of Oregon—that is one vote for every ten dollars subscribed for membership.

XXII. On the second Tuesday of August of each year, the annual meeting of the Association shall be held at their office in the city of Portland, of which ten days previous notice shall be given in at least two public newspapers in the city of Portland, by the President and Secretary, at which time the Board of Trustees shall be chosen for the next year, and report of the doings of the last preceding year submitted by the Trustees for such year and such other business transacted as the Association may see fit, provided that the first election under these articles shall without further notice be held in the Council room in the city of Portland on the second Tuesday of August, 1869, at 8 o'clock P. M. of said day, and funds subscribed to these articles prior to an organization before the person shall be entitled to vote, shall be paid into the hands of such committee as shall by the President of the meeting adopting these articles be appointed for that purpose.

XIII. All elections shall be by ballot, under such rules and regulations as the Board of Trustees may adopt for regulating the same, provided that the first election shall be held under such rules as a majority of subscribing members present shall adopt.

XXIV. The Board of Trustees may, by a unanimous vote of those present at any meeting, alter, or amend these articles, provided that a majority vote only shall be necessary to alter or amend any article herein relating to the duties of the Secretary.

XXV. No fees shall be demanded or charged by this Association, or any of its officers, for any service that may be rendered by the Association to the public or individuals.

POLITICAL.

An Ohio man calls for a State Convention of those "known as Copperheads during the war."

The revised and corrected official returns of the Virginia election make Walker's majority 18,331. The full vote was: Walker, 119,535; Wells, 101,[illegible]

The Cleveland *Herald* says that by the failure of the firm of which the Chairman of the Ohio Democratic Executive Committee is a member, and the departure of Senator Thurman for California, the Democratic party in that State is left with neither head nor pocket, at which there is woe unutterable in Columbus.

The New York *Citizen*, Democratic, thinks the Democracy of Pennsylvania want a whipping, and hints they will get it, as follows. "Our Democratic friends of Pennsylvania must need a flagellation. They have taken off their coats and stepped up to the whipping post once more. We hope the Republicans will lay it on well this time."

Of the political state of affairs in Pennsylvania the New York *Commercial Advertiser* says: Packer has nothing to recommend him but his bank account. He is old, infirm, and past his usefulness. Governor Geary, the Republican candidate, has served the country as a statesman and a soldier. He is energetic and progressive. The issue in the canvass in Pennsylvania will be dollars, age, and imbecility, against brains, patriotism and activity.

Here is what the New York *Citizen* (Democratic) thinks of the Ohio Democracy: The Democracy of Ohio were very short of material when they made up their platform. They exhibited the first gleam of intelligence we have had from them in years in the selection of Rosecrans for their candidate as Governor, but otherwise it is clear that they believe the deluge is still raining. For Heaven's sake let them come out of the Ark; the shower is over long ago.

An Arkansas Republican paper thus refers to the Conservative groans over the recent ruin of the South. A few months of Radical reign, and alas for the evidences of gross misrule! Several hundred free schools in operation, and buildings for several hundred more in process of construction! What an imposition upon the people. One railroad rapidly building, and several more actually under contract. Immigration rapidly setting in, too, and horror of horrors! all of the Radical type.

The Chicago *Tribune*, which some time ago made a sensation, and gave much material to the enemy, by declaring a general state of disappointment at Grant's administration, and that it had not a statesman in it, and that something striking had got to be done to revive public confidence, now delivers to it this exalted tribute: "The results of this administration, thus far, justify the most ardent hopes of those who elected him, and if fairly considered, should disarm the malice of those whose occupation is to oppose him right or wrong."

A Democratic State Convention has actually constructed a platform without mentioning the Fifteenth Amendment. This surprising exploit was performed at Des Moines by the Democracy of Iowa. They denounced the Maine liquor law, a high protective tariff, and so on, but had a resolve against the Amendment on the table. This is encouraging and proves the utility of being beaten. A long succession of severe defeats has chastened the Democracy of Iowa into a degree of good sense that their brethren in some other States have not yet attained.

It is well understood here that the friends of Chase were much exercised over the idea of Gen. Hancock receiving the Democratic nomination for Governor of Pennsylvania. For weeks the Chase men and Gov. Hoffman's friends have been straining every nerve to prevent Hancock's candidacy. They feared it might make the General too formidable a rival for the next Presidency. The Chase party show that they would rather see Geary elected than Hancock put in the field. The nomination of Packer insures a Republican victory. Hoffman is believed to be willing to take the second place on the Chase programme for 1872.

Benj. Todd will lecture in Oro Fino Hall next Saturday and Sunday evenings, commencing at 8 o'clock. Subject Saturday evening: "Religion; what is it? Be it of God or man?" Sunday evening: "Sunday just as good as any other day." Admission 25 cents.
